

Glo-Ball F2 Floor Lamp

Description –

Floor lamp providing diffused light. Diffuser consisting of an externally acid-etched, hand blown, flashed opaline glass and a die-cast threaded ring nut with alodine plating finish. Gray painted high-thickness steel base and stem and die-cast aluminum diffuser support. On the cable, there is the electronic dimmer which allows the regulation of light brightness.

The simple concept behind the Glo-ball family of lights is to obtain the maximum diffusion of light, this is achieved by the use of hand-blown, etched white opaline glass. The form: a flattened globe appears, like the moon, as a flat disc when illuminated.

General –

Designer:	Japer Morrison
